SECRET CONTROL

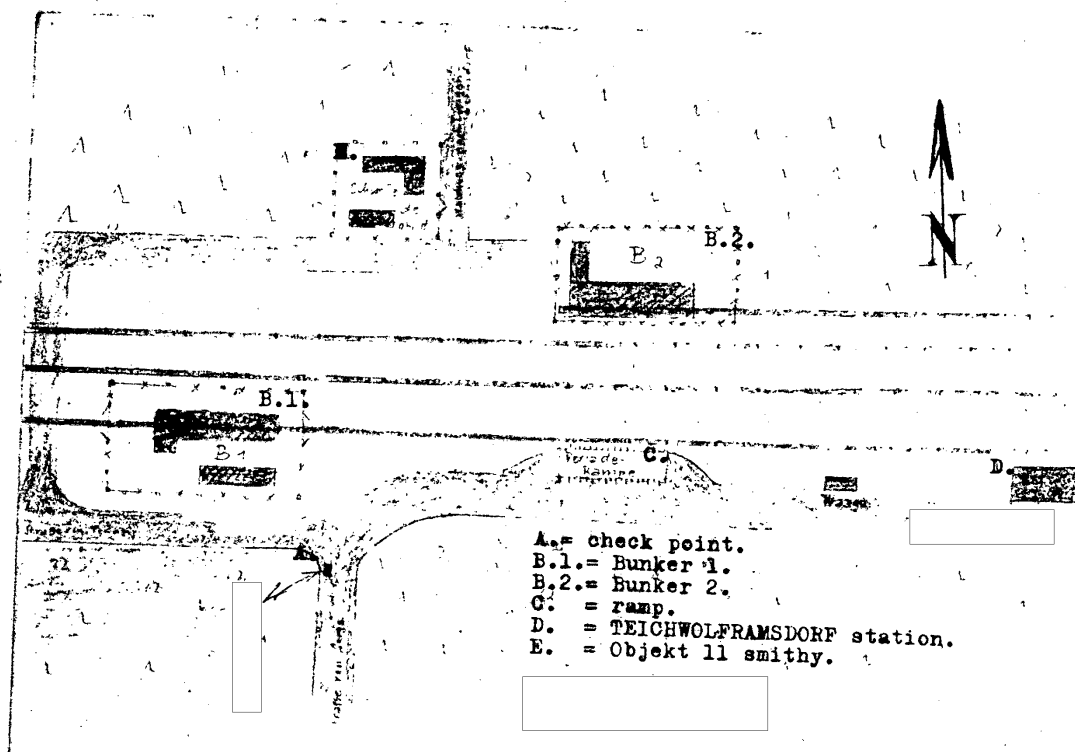

WISMUT AG: Bunkers near TEICHWOLFRAMSDORF

1. There are two bunkers near TEICHWOLFRAMSDORF station (see appended plan). Each is surrounded by a high wooden fence, with barbed wire on top. The bunkers appeared to be manned and guarded entirely by Russian soldiers. The Russians appear to work three shifts, changing at 7 a.m., 3 p.m. and 11 p.m., when reliefs arrive [redacted] They are operated day and night. 50X1-HUM
2. Ore is brought [redacted] All [redacted] are checked in and out by Russian soldiers at the check point. Some [redacted] unload direct into open goods wagons at the ramp. Most [redacted] are driven into the Bunker 2 compound, where they unload into a hopper. The ore then disappears into the interior of the bunker, and is finally loaded into open goods wagons. Bunker 2 is about 25 m [redacted] long, and about three goods wagons can be loaded simultaneously. This bunker is open at one end only. 50X1-HUM
3. Bunker 1 appears to be little used. It is of about the same length as Bunker 2, but is open at both ends. On one occasion two closed goods wagons were seen under it, but loading did not appear to be in progress.
4. On 21-23 August approximately 38, 65 and 23 open wagons were loaded altogether. [redacted] about 40-50 are loaded daily, including Sundays. 50X1-HUM
